

About the Project

WOMENIN aims to promote entrepreneurship among entrepreneurs women. In addition, as specific objectives we want to identify the challenges faced by entrepreneur women, we will promote the global vision of the internationalisation of entrepreneur women in Europe, and we will promote digital entrepreneurship and we will facilitate the interconnection of entrepreneur women through digitalisation.

Partnership

Partnership consists of 7 partners from 7 European countries.

Results

The project is organized around four work packages

Work package 1: Project Management	The objectives of work package 1 are to establish and implement effective project management procedures, ensure project progress and quality control, manage project resources and stakeholders, and communicate project results and achievements to relevant parties.
Work package 2: Design process for the development of WOMENIN competences	The specific objectives of this work package are, firstly, the creation of a manual that will be divided into different modules analysing the challenges faced by entrepreneur women in each country of the consortium. Secondly, the creation of an online training course for VET trainers will be developed so that all the knowledge set out in the manual is embedded in the training course.
Work package 3: Elaboration of the digital escape room training and instructions for its use	The specific objectives to be achieved in this package are, firstly, to promote digital entrepreneurship among entrepreneur women. Secondly, to facilitate the interconnection and communication of entrepreneur women through digitalisation.
Work package 4: Dissemination, Communication and Exploitation of the Project	The objectives of this package are to share and disseminate project results, interact with target groups and stakeholders, promote the project, and facilitate coordination with other projects and networks, with the ultimate goal of maximizing the impact and sustainability of the project.

First activities

The project has started on the first of December 2022. Since then the consortium has met for an online and created specific plans of quality assurance, dissemination and management as well as created the project's website and visual identity. Additionally, the partners created guidelines and templates for the creation and development of the handbook. Soon, the second international project meeting will take place in Italy.
